# Clear Ledger

Brand sheet. Clear space x = the wordmark cap height. Minimum sizes: horizontal 120 px / 25 mm, stacked 160 px / 25 mm, mark 24 px / 6 mm, favicon 16 px.

Clear Ledger is written the way a bookkeeper writes a total: the name, in a plain and sturdy book face, sitting on a double line, the mark that tells you this is the figure to look at. It is meant to feel like the books a careful person keeps for the village shop, calm and readable rather than clever, so a sole trader opening the app at midnight sees at once where they stand. The moss green is quiet on purpose, far from the bright greens and blues of money apps, and the mark works just as well in plain black on a receipt printer. In the smallest places, such as the browser tab and the smallest app icons, the initials keep the same double line, so it is the same signature at every size.

## LOGO SYSTEM

## CLEAR SPACE

One x of clear space on every side, where x is the wordmark cap height. Never crop, outline, rotate, distort, add effects, recolour outside the roles, re-typeset, or place on busy backgrounds without the reversed or contained version.
